Boston Youth Farm Project

FOR DISTRICTS

One Check-In. One Roll-Up. Every School.

Elementary students keep a grow lab alive for four weeks, then harvest it with their families. Every building runs the same five-item Check-In, and your office gets one roll-up.

FOUR WEEKS, SEED TO SALAD

WEEK 01	WEEK 02	WEEK 03	WEEK 04
Kale	**Arugula**	**Radish**	**Harvest**
It all starts with a seed	Where does food come from?	Food is fuel	Taste what you grew

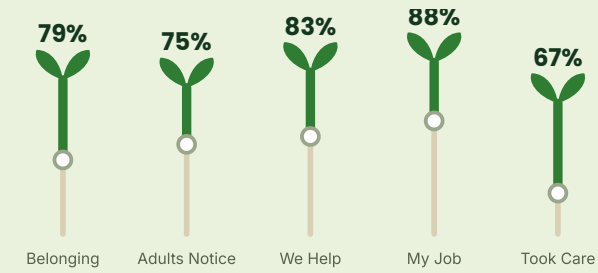
WHAT LANDS IN YOUR CLASSROOM

1. **Grow rack**
   LED lights, trays and a timer, ready to plug in
2. **Seeds & soil**
   Enough for up to 84 students
3. **48 activities**
   Teacher guides and student pages for every one
4. **Taste kit**
   Down to the plates, forks and dressing
5. **A real person**
   Setup help, how-to videos and someone to call

WITH DATA, WE SHOW BELONGING GROWS

Week 1 → Week 4

One private, five-item Check-In, before planting and before harvest.



Grey dot: week 1 · Leaf: week 4 · Agreeing = Mostly or Totally · Sample class

WHY THIS, WHY NOW

- A Tier 1 belonging routine every student joins
- The same five items in every building
- A roll-up built for your Student Opportunity Act plan

BY THE NUMBERS

4 weeks, seed to salad	**48** hands-on activities
1 page brief for your plan	**5** streams of evidence

One wellness story across every elementary school.
